SUPALYX® Cattle

A high specification mineral, vitamin and trace element bucket for all types of cattle on grazing or high forage systems.

Features & benefits:

- Optimal mineral, vitamin and trace element supply to help balance potential deficiencies in forage-based production systems.
- Contains protected copper to help support fertility in breeding cattle and target daily liveweight gains in growing cattle where potential 'lock-up' is an issue.
- Includes high levels of zinc for cattle at risk of lameness and mastitis

Ideal for:

- All classes of cattle on forage-based systems throughout the year.
- Breeding cows and heifers at bulling time.

User guide:

- Offer free-access at a ratio of one 22.5kg bucket per 15 head of cattle.
- Ensure ad-lib forage is always available.
- Do not feed to sheep (contains copper).
- For where badgers present an issue, offer in the Rumenco Badger Blocker feeder.

Typical intakes:

- Cattle up to 150g/head/day*.

* Consumption will be influenced by number of feed points per head of stock, forage availability and quality, other feeds available, age and breed of stock and proximity to water sources.

Product Specification:

Typical sugar (as sucrose) %	21
Calcium %	12
Phosphorus %	0.5
Magnesium %	3
Sodium %	8
Selenium mg/kg	20
Cobalt mg/kg	20
Iodine mg/kg	100
Manganese mg/kg	1,500
Zinc mg/kg	3,000
Copper* mg/kg	1,200
Vitamin A iu/kg	200,000
Vitamin D ₃ iu/kg	40,000
Vitamin E iu/kg	500

*contains protected copper
